

SALVAGE

Art is something diverse and liquid, it can be shaped into any form besides just on a canvas. Art can be anything it wants to be. Textures, forms, shape along with ideas, creativity and a message come together in Salvage, where your art is more than just what can be on a page, it reaches its full potential and makes a statement. More than 2D, maybe 3D absolutely 4D.

DELEGATE CAP: 1 -3 DELEGATES PER TEAM

TIME LIMIT: 9 HOURS

Themes:

Behind the plastic

- The truth of consumerism, manufactured nostalgia, trying to bring back something when its long lived out it's glory days all for the sake of corporations raking in some money. What happens in factories that hide all the nitty gritty in glossy veneer? What cogs run behind something smooth as skin?

Black and white

- The stark contrast of light and dark in a closed environment. There is duality in all things that exist to observe. Every good has a bad, every yin has a yang and every black has a white. Show the contrast you observe, within yourself or outside of yourself.

Flesh to machine

- A society where everything is quantified by productivity, locking in all the time for work makes you feel like a machine, especially artists. The rise of AI has shown artists how replaceable they are in society. The human flesh turns into an artificial machine, a morbid metamorphosis where authenticity is fake. Wires instead of veins, electricity flowing instead of blood. Is the flesh corrupted, or is it for the better?

Reputations of society

- Have you ever felt pressured to smile for a picture you didn't want to take? Have you felt like you were just a picture in a frame, the representation of honor? Upkeeping appearances just because of society? Clothes you don, masks you wear, frames you hold, to hide a truth that everyone knows about. Putting on a façade, just for the sake of reputation.

Nature's canvas

- a soft flower blooms between cold rigid clean tiles of a brutalist building. Contrasting modern beauty with ancient beauty. Vines curling and mother nature marks her territory despite humanity. Organic dominates the world, in macros and in micros.

Guidelines:

- Delegates will be provided with 9 hours of total time. They can spend as much as time as they want for each day to complete their work over the course of the 4 days of the event.
- Delegates should not bring anything with heavy fumes. However, if they are on a small scale for example glue or resin and delegates take proper precaution, it is allowed. Being mindful of your space and other's is crucial. If delegates must use things such as spray paint, they are required to go outside for creating for the sake of good ventilation.
- Delegates must bring their own supplies and such to bring their vision to life.
- Delegates are required to submit a thesis statement for their work, show pictures or videos of progress, their idea behind it and the challenges they had to overcome to make their peace. They must list the techniques and materials they had used. It should be from 100-200 words.
- Before working on anything, delegates must show all references to the category heads for direct approval including materials and supplies.

Restrictions:

- You must not plagiarize or use any generative AI tool for ideas. The idea should be completely original and references must be provided.
- Materials that might cause harm such as wire or exposed edges are prohibited for the sake of safety
- Pre-made kits/sculptures or any mass-produced decorative items are not allowed for the sake of authenticity
- Outsourcing help from any other delegate or making somebody do work for you is prohibited. You should not inconvenience others for the sake of your work and lock in.

Judging Criteria:

1. Creativity, execution of theme and unique individual interpretation of ideas based on how the delegate perceived it
2. Skills, how materials were effectively utilized and how techniques were applied.
3. Meaning, how it conveys emotion and how it can connect well to social commentary and themes
4. Overall impression, how it impacts and makes a statement

Note:

- Delegates are HEAVILY encouraged to recycle for this category by using old materials, refrain from buying something and use what you have on hand!
